International Corsage Winter Meeting in Nijmegen, NL

Genomics in the Policy Room

3 December 2008, 9.30 – 17.30 hours

In the “policy room” negotiations about how to deal with genomics affect the work of both life-scientists and social scientists accompanying genomics programmes: On the one hand, genomics is dealt with as an *object of policy-making*, most commonly in terms of (future) regulation & implementation, and in science policy. On the other hand, *policy-making* is also on the agenda of those active in genomics. Important policy questions are, among others, the division of resources, the valorisation and patenting of research findings and the societal aspects of genomics. The meeting is designed as a forum for young (pre/post-PhD level) scholars and practitioners at the junctions of science, social sciences/humanities and policy-making.

Registration is open!

The conference is free of charge. Please, register by sending an email to:

Peter Stegmaier: stegmaier@society-genomics.nl and

Erwin van Rijswoud: e.vanrijswoud@science.ru.nl

The meeting is organized by Peter Stegmaier, CSG Nijmegen, & Erwin van Rijswoud, Department of Philosophy and Science Studies, Science Faculty, Radboud University Nijmegen in cooperation with Eline Huisjes and Jurgen Haanstra from **GeNeYouS** (the Genomics Network for Young Scientists; www.geneyous.nl/home.php) and also with the **Postgraduate Forum on Genetics and Society** (PFGS, based in Exeter/UK; www.pfgs.org/pfgs). Corsage is a thematic cluster of GeNeYouS. See also: www.geneyous.nl/corsage/ and www.society-genomics.nl/?page=640. With financial contributions by the Centre for Society and Genomics (CSG), and the Netherlands Graduate Research School of Science, Technology and Modern Culture (WTMC).
